

A close-up photograph of a person's face, focusing on the nose and mouth. A clear plastic syringe with a needle is positioned in the lower-left corner, pointing towards the mouth. The syringe has markings for 0, 50, 100, 200, 300, 400, and 500. In the bottom right corner, there is a decorative graphic consisting of several blue, curved, dashed lines. The background is a soft, out-of-focus skin tone.

VIRTUE RF Microneedling in NYC

- Improve skin tone and texture, improvement of wrinkles and scars, and skin tightening. In addition to the laser skin resurfacing technologies offered at our Manhattan plastic surgery office, [Dr. Rothaus](#) also provides patients with several radiofrequency skin resurfacing options. Rothaus Plastic Surgery treats patients living in NYC, Manhattan, Westchester, the Upper East Side, and nearby communities in New York.
